

SEI BULLETIN - MARCH 8, 2017

14th SEI Software Engineering Workshop for Educators Set for August 1-3, 2017

The 14th SEI Software Engineering Workshop for Educators will take place August 1-3, 2017, at the SEI's Pittsburgh, Pennsylvania, headquarters. The workshop fosters an exchange of ideas among educators whose curricula include subjects spanning software engineering.

Formerly called the Architecture-Centric Engineering Workshop, this event broadened its scope last year to encompass the entire field of software engineering. In keeping with the SEI tradition for this workshop, the event is free of charge and open to any accredited, college-level educator.

In lieu of an entry fee, attendees are expected to bring a shareable artifact to the workshop.

ABOUT THE SEI BULLETIN

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

SEND US YOUR STORY

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu and you could be featured in a future issue of the SEI Bulletin.
