SATURN 2017 Provides Attendees a “High-Density” Experience

The SEI hosted its thirteenth annual SEI Architecture Technology User Network (SATURN) Conference May 1 through May 4 in Denver, Colorado. Participants in the conference, who represented 104 organizations and 18 countries, shared ideas, insights, and experiences about effective software architecture practices for developing and maintaining software-intensive systems. The conference featured courses on big data, secure DevOps, and microservices, and a technical program spanning a range of topics, including DevOps, microservices, serverless architectures, cloud computing, and technical leadership.

**SEI EVENTS**
This week’s featured events:

- 2017 Software Engineering Workshop for Educators

**SEI CYBER MINUTE**
SEI experts deliver weekly snapshots of our latest research on the changing world of all things cyber. This week’s featured cyber minutes:

- Wannacry Ransomware
- Enterprise Risk Management

**SEI TRAINING**
Upcoming classes:

- TSP Team Member Training
  July 11-13, 2017 (Pittsburgh, Pa.)
- Insider Threat Vulnerability Assessor Training
  July 25-27, 2017 (SEI Arlington, Va.)

**SEI CAREERS**
This week’s featured opportunities:

- Senior Software Systems Engineer
- Machine Learning Research Scientist
  All Open Positions
ABOUT THE SEI BULLETIN
The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

SEND US YOUR STORY
Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu and you could be featured in a future issue of the SEI Bulletin.
