Humphrey Software Quality Award Nominations Open

August 3, 2022—The 2023 IEEE Computer Society/Software Engineering Institute Watts S. Humphrey Software Quality Award is open for [nominations](#) through September 1. The [award](#) recognizes an individual's or team's outstanding achievements in improving an organization's ability to create and evolve high-quality software-dependent systems.

"Software is pervasive in everything we do now, in transportation, energy, commerce, and more," said Julia Mullaney, chair of the award committee. "We should be recognizing people, teams, and organizations who are committed to software excellence."

The award is named for Watts Humphrey, known as the "Father of Software Quality."

[Cybersecurity Assurance Leader](#)

Shane McGraw interviews Matthew Butkovic, technical director of risk and resilience, about the open position of cybersecurity assurance technical manager.

[Adapting Agile and DevSecOps to Improve Non-Software Development Teams](#)

Lyndsi Hughes and David Sweeney share their experiences applying Agile and DevSecOps practices in atypical ways.

[Where Software Architects Make a Difference](#)

Shane McGraw interviews James Ivers, lead of the SEI's software architecture team, about openings for software architects and software architecture researchers.

[Upcoming Events](#)

Webcast - [What are Deepfakes, and How Can We Detect Them](#), August 18
Shannon Gallagher and Dominic Ross discuss deepfakes and how the SEI is building artificial intelligence and machine learning to distinguish real from fake.

[SEI Zero Trust Industry Day 2022](#), August 30-31

Selected vendors, research organizations, and other solution providers will present zero trust architecture proposals.

[DevSecOps Days Washington, D.C. 2022](#), October 12

This virtual conference helps DevSecOps practitioners elevate their practices.
