Welcome: Hasan Yasar

HASAN YASAR is the Technical Director of the Continuous Deployment of Capability directorate at the Software Engineering Institute, CMU.

Hasan leads an engineering group to enable, accelerate, and assure transformation at the speed of relevance by leveraging DevSecOps, Agile, Lean AI/ML, and other emerging technologies to create a Smart Software Platform/Pipeline.

Hasan has more than 25 years’ experience as a senior security engineer, software engineer, software architect, and manager in all phases of secure software development and information modeling processes. He is also an adjunct faculty member in the CMU Heinz College and Institute of Software Research where he currently teaches “Software and Security” and “DevOps: Engineering for Deployment and Operations.”
Keynote: Derek Weeks, The Linux Foundation

Derek serves as a Senior Vice President at the Linux Foundation supporting DevOps, security, cloud-native computing, and other technology segments.

Prior to the Linux Foundation, Derek served as a Vice President at Sonatype where he focused on open-source security and championed research for their annual State of the Software Supply Chain Report and DevSecOps Community Survey, six years running.

Derek has been named to the DevOps 100 by TechBeacon, distinguished as the DevOps Evangelist of the Year by DevOps.com, and received the Industry Executive of the Year from ATARC.
