

Call for Workshop Papers

“The First International Workshop on AI Services and Applications (AISA’2024)”

<https://www.atcamp.co.kr/main/page.jsp?code=aisa&mode=aisa2024>

Pittsburgh, Pennsylvania

28-31 October 2024

To be held in conjunction with the 43rd International Conference on Conceptual Modeling, ER 2024

<http://ER2024.org>

Workshop Description:

The rapid advancement of artificial intelligence (AI) technologies has opened up new possibilities for conceptual modelling (ER) businesses across various industries. However, the effective application of these technologies requires a deep understanding of both their potential and their limitations. The International Workshop on AI Services and Applications (AISA’2024) is where AI services and applications comes into play.

- **Knowledge Sharing:** The workshop will serve as a platform for sharing knowledge and best practices in the field of AI. It will bring together experts from academia, industry, and consulting to share their insights and experiences. This will help participants to stay updated with the latest trends and developments in AI.
- **Practical Applications:** The workshop will focus on practical applications of AI in various business contexts. This includes AI-powered knowledge services that can help organizations to manage and leverage their knowledge assets more effectively. It will also cover AI consulting services that can guide businesses in their AI journey.
- **Hands-on Experience:** the workshop welcomes any project or tools that can provide hands-on experience on AI services or applications.
- **Networking Opportunities:** The workshop will provide ample opportunities for networking. Participants will be able to connect with like-minded professionals and potential collaborators. This can lead to future partnerships and collaborations.
- **Promoting AI Adoption:** By educating participants about the benefits and applications of AI, the workshop will promote the adoption of AI technologies. This can lead to increased efficiency, improved decision-making, and enhanced competitiveness for businesses.

Topics of interest include, but are not limited to:

- **The Impact of AI on Conceptual Modelling:** Exploring how AI can enhance the process of capturing, distributing, and effectively using knowledge in conceptual modeling.

- **AI in Decision-Making:** Investigating the role of AI in improving decision-making processes in business services.
- **AI and Process Automation in Knowledge Services & Business:** Studying the potential of AI in automating routine tasks in business, thereby increasing efficiency and reducing costs.
- **Ethical Considerations in AI Applications in Knowledge Services & Business:** Examining the ethical implications of using AI in business, including issues of privacy, bias, and transparency.
- **AI and Big Data in Knowledge Services & Business:** Researching how AI can help consultants make better use of big data to provide more insightful and personalized services.
- **The Future of AI in Knowledge Services & Business:** Predicting future trends and developments in the use of AI in business services.
- **Case Studies of Successful AI Applications in Knowledge Services & Business:** Analyzing successful case studies where AI has been used to improve business services.

Important Dates

Abstract Submission (Optional)  not later than **13 July 2024**

Paper Submission  not later than **27 July 2024**

Paper Notification  not later than **11 August 2024**

Camera-Ready Version  **30 August 2024**

Conference  **28-31 October 2024**

Workshop Advisor

Il-Yeol Song, Drexel University, USA

Workshop Organizer:

Jin-Taek Jung, Hansung University, Korea

Program Committee

- Yudho Giri, Indonesia University, Indonesia (yudho@cs.ui.ac.id)
- Vu. Vu Viet, C&C University, Vietnam (vvvu@cmc-u.edu.vn)
- Kyung-Hye Park, Chungnam National University, Korea (kpark@cnu.ac.kr)
- Burmaa Natsag (National University of Mongolia) (burmaan@yahoo.com)
- Hyung-Yong Lee, Hansung University, Korea (leemit@hansung.ac.kr)
- Hyunchul Ahn, Kookmin University, Korea (hcahn@kookmin.ac.kr)
- KyooSung Noh, Korea Association of Software Manpower, Korea (ksnoh114@gmail.com)
- Seunghee Lee, Kumoh Institute of Technology, Korea (marketing@kumoh.ac.kr)
- Mincheol Kim, Jeju National University, Korea (mck1292@jejunu.ac.kr)
- Joon Youn Kim, Software Policy & Research Institute, Korea (catchup@spri.kr)
- Ho-Seok Yu, Software Policy & Research Institute, Korea (hsy@spri.kr)
- Jae-Jin, Ko, Korea Electronics Technology Institute, Korea (jaejini@keti.re.kr)
- Seon-phil Jeong, BNU-HKBU United International College, China (spjeong@uic.edu.cn)
- Sang-Min YOON, Kookmin University, Korea (smyoon@kookmin.ac.kr)
- Maros Halama, Technical University of Kosice, Slovakia (maros.halama@tuke.sk)
- Han-Sung Yoon, Hansung University, Korea (hansyoon@hansung.ac.kr)

Submission Guidelines

Submit papers via [EasyChair for ER 2024](#) to the “AISA’2024 Workshop Papers” Track.

Since the proceedings will be published by Springer in the LNCS series, authors must submit manuscripts using the [LNCS](#) style or [Overleaf](#). The page limit is 16 pages (excluding references). Papers will be judged on contribution, literature basis, novelty, clarity, relevance, and rigor. The review process is double-blind. Submissions must be anonymized.
